

# POURVOIRIE DES BOULEAUX BLANCS

## FISHING

### AN EXCELLENT SEASON DESPITE FOOD ABUNDANCE

This summer, food was plentiful in all our lakes during the entire season because of the unusually high water levels and an impressive insect outbreak. For this reason, both patience and skills were necessary to catch trouts. However, against all odds, you managed to capture more than 12,800 trouts. Congratulations to all our fishermen who, year after year, contribute to our success!

## BEAR HUNTING AN EVENTFUL SEASON

This year, we had the pleasure to welcome 30 hunters from the US who hunted a total of 21 bears. Once again, our bear hunting adepts all had the opportunity to see at least one bear during their stay. A great 400 lb trophy has been taken by Kenneth from Ohio.

Furthermore, several hunters had the chance to observe a 450 lb + magnificent specimen. The clever animal managed to escape our clients this year but, who can tell what the next season will bring?

## MOOSE HUNTING A PEAK YEAR!

Thanks to good herd management, our guides' hard work and ideal hunting conditions, we had an exceptional season. Rifle hunters made us extremely proud with their 12 males and 5 females caught in only 2 weeks.

Some great specimens pictures !
